SUPERTRACK USE CASE

RFID+QR Code Security Guard Patrol Checkpoint System

At Havoc, we are always looking for new and inventive ways to help our customers eliminate outdated and expensive processes and consolidate systems. Using Supertrack and our RFID+QR code technology for security guard patrols is one such use case.

The same Supertrack account used for safety and equipment management can be used as an efficient security guard patrol checkpoint solution with real time updates and inspections. By using Supertrack for this application, customers can increase procedural efficiency and eliminate the cost of an old system.

- RFID+QR Code Checkpoint Scan Tags
- Works with Apple and Android Phones and Tablets
- No Dedicated / Expensive Scanners Required
- Cloud-Based and Updates in Real Time
- No Secondary Uploading of Data Required
- Automatic Notifications of Failed Patrol Inspections
